

Jefferson Gakuya - Full-Stack Developer

Nairobi, Kenya | jeffersongakuya@gmail.com | (+254) 713-070-350 | [GitHub](#)

PROFESSIONAL SUMMARY

Innovative **Full-Stack Software Engineer** with extensive experience designing, building, and deploying dynamic web and mobile applications. Proficient in **React.js (Next.js)**, **Vue.js**, **PHP**, and **serverless technologies**, with a proven ability to optimize systems for scalability and performance. Adept at crafting seamless user experiences and integrating robust backend systems. Passionate about leveraging technology to solve complex challenges and deliver impactful solutions.

TECHNICAL SKILLS

- **Frontend:** React.js (Next.js), React Native, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux, TailwindCSS, Framer Motion
 - **Backend:** Node.js, Django, Flask, Express.js, PHP (WordPress), RESTful APIs, GraphQL
 - **Serverless:** AWS Lambda, Vercel Functions
 - **Databases:** MySQL, PostgreSQL, MongoDB
 - **DevOps:** Docker, CI/CD Pipelines, Git, AWS
 - **Testing:** Jest, React Testing Library, PHPUnit
 - **Other:** Agile Methodologies, Responsive Design, MobX
-

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Four Africa | Nairobi, Kenya

February 2022 - Present

- Led the development of a high-performance **React Native Node.js** application integrated with **WooCommerce** APIs, optimizing API performance and securing endpoints for scalability.
- Designed and deployed **Next.js** and **React.js** serverless applications, increasing app traffic by 25% and significantly improving SEO.

- Engineered custom APIs to streamline data exchange across systems, achieving a 40% improvement in efficiency.
- Integrated CI/CD pipelines, conducted code reviews, and performed unit testing to ensure code quality and maintainability.
- Built and customized WordPress plugins in PHP, delivering client-specific solutions to enhance website functionality.
- Developed responsive websites using **HTML**, **CSS**, and **JavaScript**, ensuring optimal cross-device experiences.

Backend Developer Intern

Whip Music Africa | Lagos, Nigeria

November 2021 – February 2022

- Designed scalable API endpoints with **Django Rest Framework** and optimized API response times through caching and efficient queries.
- Reduced API bundle size, improving performance by 5%, and enhanced caching for faster data retrieval.

Computer Technician Assistant

Antioch Baptist Computer Labs | Nairobi, Kenya

December 2018 – April 2019

- Installed and maintained computer hardware, software, and network systems, resolving user issues effectively.

PROJECTS

React Native E-Commerce App

- Built a cross-platform mobile app using **React Native**, integrating **WooCommerce** APIs for real-time inventory management.
- Implemented offline functionality, push notifications, and achieved 95% crash-free sessions.

Scalable Multi-vendor Platform

- Developed a marketplace using **React.js**, **WooCommerce**, and **PHP**, enabling real-time inventory updates and payment gateway integration.
- Reduced page load times by 30% through optimization and performance tuning.

EDUCATION

Diploma of Engineering - Computer Science

Moringa School, Nairobi, Kenya

Diploma in Web Design and Development

Nairobis Trust, Nairobi, Kenya

CERTIFICATIONS

- Google Africa Developer Scholarship
